# Charity Giftware

Gifts for fundraising designed for your charity

# How it works

## Let's work together to create a unique gift for your charity.

We start by discussing the image or logo you would like to use on your products. We can show you examples of what we have done for other charities.

Next, you pick your products; we have lots to choose from; take a look through this brochure or visit our website.

Now the fun begins, our illustrators will create your artwork and send it over to you for comments and to make any alterations. Once this is approved we will send you visuals of your products.

Then our production team will create your products and send them to your door – this normally takes four weeks from approval of the visuals.

# About us

## From artwork to despatch...

Everything you see in this brochure is produced by our award winning team in our iconic factory situated just off the seafront in Hastings. We value the opportunity to work under the same roof, from our design department producing the artwork to the production team assembling your products and despatching them. We know that we can iron out any queries quickly and get the best possible results from our creativity and manufacturing skills.

Our products are printed on either our Heidelberg printing press or the state-of-the-art Xerox digital press. This allows us to print to any volume you desire – short or long runs.

Please call by if ever you are passing, we might even treat you to a bag of chips on the beach!

## Sustainability

Our whole factory and office suites run on low energy lights.

Our heating system has been upgraded to high efficiency boilers.

The paper for our envelopes and the board we print on comes from well managed, sustainable and accredited sources.
