

# flora & fauna

by Beth Tibbles

Bespoke artwork for the wildlife in your location

# **How it works**

Let's work together to create a Flora and Fauna range for your location.

There are 4 design elements, on pages 4-7:

- Plants
- Birds
- Insects
- Animals

You can select any 12 of these icons to make up your design. If there is a particular plant, bird, insect or animal you would like to include, we will create one new icon for you, at no extra charge.\*

We finish the design off with your title or place name.

Our design team will then create artwork proofs of each product on your order. Once approved, our production team will make your products and despatch them to your door. This normally takes a further 4 weeks.

Each order is delivered with a point-of-sale package to help you promote the range in your retail space – see page 18.

Important bits

To cover the design and set up charges we ask that you place a minimum initial order of £750 +VAT.

\*One new icon is free of charge.
Second and subsequent new icons are charged at £35 each.

The price includes up-to two amendments to the artwork at the design and proofing stage. Thereafter they will cost £50 + VAT per amendment

In the unlikely event that you decide to cancel the order after the artwork has been created a cancellation charge of £250 +VAT will be incurred, this will be offset should the order be reinstated.

# **Our process**

From artwork to despatch...
Everything you see in this brochure is produced in our iconic factory situated just off the seafront in (usually) sunny Hastings.

We value the ability of our team to work under the same roof, from Beth producing the original artwork to Tash assembling your products and despatching them out the door. We like to feel that we can iron out any queries quickly and we get the best possible results from our creativity and manufacturing skills.

Gavin, was first introduced to the Judges family when he joined us on a work experience placement from school and now heads up our print division over seeing our Heidelberg printing press and state of the art Xerox digital unit.

Please call by if ever you are passing, we might even treat you to a bag of chips on the beach!

# Sustainability

Our printing inks are made from vegetable oils

The paper for our envelopes and the board we print on comes from well managed, sustainable and accredited sources

All our waste printing board and cardboard are sent for recycling. Our general waste is zero landfill

Our whole factory and office suites run on low energy lights

Our heating system has been upgraded to high efficiency boilers

As all of our design and production happens under one roof there is no need for unnecessary transportation of stock
